

How to Use with Wireless Charger

For video instructions, search "wireless charging" on youtube.com/venaproducts

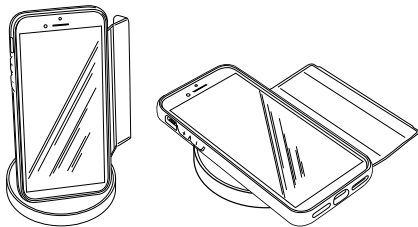

Note:

1. Wireless charging coil is located in the center of the phone
2. Wireless charging occurs when charger is placed directly underneath or behind wireless charging coil inside phone

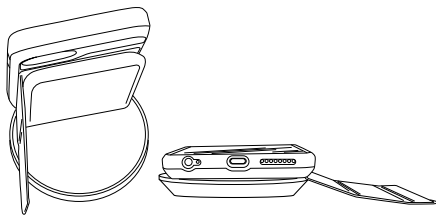

STEP 1:

Open Flap

STEP 2:

Center phone on charger

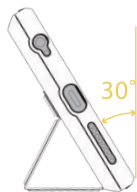

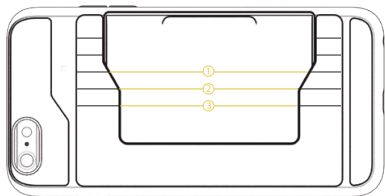

STEP 3:

Verify phone is in complete contact with charger

NOTE:

1. vCommute for iPhone wireless charging is only compatible with iPhone 8, 8 Plus and iPhone X
2. Metal credit cards will interfere with wireless charging. Please remove before charging
